

## TALENTINA 2022 – SEASON 1 – INTRA SCHOOL CULTURAL FEST.

Enhancing 21<sup>st</sup> - century skills like collaboration and communication among students is the prime role of Modern Education. The process of enculturalization is best realized through cultural events at the school level. We at Maharishi Vidya Mandir, Kovilambakkam wanted our children to internalize the cultural values. Thus bloomed 'Talentina 2022', a cultural fest organized by the Department of Music and Art. Students from all the classes were encouraged to actively participate in both visual and performing art events.

There was a preliminary round where the platform was opened for all the students to showcase their talents followed by the final round. Be it the 'abhinaya' exhibited in the classical performances filled with 'rasa' and 'bhava' or the grace exhibited in the aerobic, gravity-defying strides of western dance performances, it was all spectacular. The mesmerizing vocal and the harmonious instrumental musical performances were a real treat to our senses. Students' imagination flowed with beautiful hues in the artwork.
